

PATH THREE OVERVIEW

OVERVIEW

FLE cycles build precise thought, action and reflection in a cumulative way.

FLE cycles, are intentionally simple so they can be memorized, internalized and practiced on a daily basis.

The foundation cycle supports the other cycles by reinforcing the healthy patterns of thought that will be essential to progress.

PATH THREE LEARNER

- Path Three Learners are Information Technology executives or senior leaders with a significant scope of authority over their companies human-machine interfaces.
- Take 60 x 50 minute modules of instruction and a detailed emotional intelligence evaluation
- Take 60 timed quizzes
- Upload 10 .mp4 videos of pair instruction from each cycle

FRICION LESS ENTERPRISE PATHS

PATH THREE

AWARENESS CYCLE

FLE-E, Engineering Leaders start here. Inclinations toward Continuous Transparency and waste reduction are explored alongside an Emotional Intelligence evaluation and a suite of technology tools.

ORIENTATION CYCLE

Discover the position of your team and organization within the context of best in breed practices from your industry and market.

CADENCE CYCLE

Synchronize your sequential roadmaps with your known activity and then use FLE techniques to uncover opportune market circumstances that allow bold ideas to flourish in the marketplace. Refresh learning and planning in Awareness Cycle.

PURPOSE CYCLE

Pursue alignment with business stakeholders as you formulate laser focused hypothesis. Learn the business case for technology, infrastructure and tool investments.

GOAL CYCLE

Aim your team and aim your organization to your desired direction by exemplifying the Emotional Intelligence, ethic, work product, behavior, speech and actions of your goals.
